

The Triangle Gang and their Pretentious Symbols

by Jeremy James

The red mountains of Edom

Those who oppose the LORD God of all Creation are entirely without power, except to the extent that they can draw on the limited power that the fallen angels still possess. Magic, Kabbalah and Freemasonry are the methods that rebellious men have devised to enable them to appropriate this power, at least to some degree, and forge ahead with their wicked schemes.

The Bible refers in several places to the outrageous pride and implacable hatred of the Edomites. These people intend to create order out of chaos and build back better. However, in the last book of the Old Testament, the Word of God says that their wicked plans will be confounded in the End Time:

“Whereas Edom saith, We are impoverished, but we will return and build the desolate places; thus saith the LORD of hosts, They shall build, but I will throw down; and they shall call them, The border of wickedness, and, The people against whom the LORD hath indignation for ever.” (Malachi 1:4)

Anyone who is determined to dwell in the land of the Edomites – the land of Magic, Kabbalah and Freemasonry – has crossed the border of wickedness. They have knowingly aligned themselves with the Enemy, the great Adversary who is intent upon destroying the order established by God and replacing it with the putrid outfall of his dark imagination.

They love their symbolism

They love their symbolism since it enables them to pursue their vaunted ambitions and pretend the world is subject in some mysterious way to their occult rituals, their astrological calculations, and the cosmic power they presume to acquire through their secret initiations. They see certain symbols as repositories of power and use them in accordance with their ancient occult rules to release the energies that will drive their plan forward.

Gematria based on the Greek alphabet.

Let's take the symbolic number 16172.

To any normal person, this is just one number among many. But not to these people. They place special importance on symbols which incorporate the numbers 1 and 3, as well as a sequence of three numbers. They also love prime numbers since they are divisible only by themselves and the number 1.

The number 16172 “hides” a magical sequence. Its factors are **2 x 2 x 13 x 311**. All four numbers are prime.

The number 2 occurs twice in succession, not three times. But this is easily solved. In basic Gematria, where letters correspond to or represent the position they occupy in the alphabet, the letter “B” equals 2 (being the second letter). So, the full symbolic power of the number 16172 is activated by placing the letter “B” in front of it – **B16172**.

This is equivalent, in numerological terms, to the sequence **2 . 2 . 2 . 13 . 311**, or simply **22213311**.

This will still mean nothing to the average person. But it is an example of operational magic, where the public is shown something of great importance and supposed occult potency – “hidden in plain sight” – but which, in their non-initiated simplicity, they are unable to understand and cannot avoid.

As many are aware, the Covid program is designed to prepare the world for the Great Reset and, along the way, to reduce the population and eliminate those who might dare to oppose it. We are being told constantly that a “third wave” of this allegedly deadly pandemic virus is about to strike and that it will be a nasty “variant” of the original Covid-19. The experts are jumping up and down and waving their arms in horror. We are being told that, after a summer of selfish disregard for the Covid restrictions, entire nations will succumb to this lethal variant. Here is how a professor of medicine at the University of East Anglia put it on 26 May 2021:

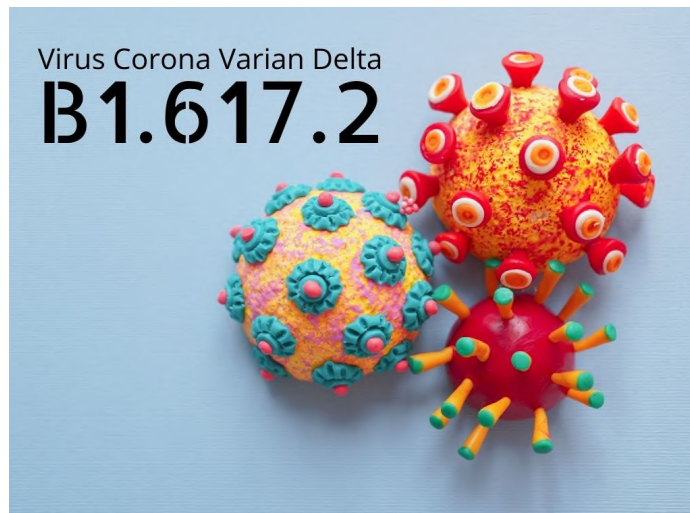

The screenshot shows a news article with the headline "B16172 variant: the UK needs to brace for more cases, despite vaccine effectiveness" and a sub-headline "May 26, 2021 6:31am EDT". The author is Paul Hunter, Professor of Medicine, University of East Anglia. The article text states: "The B16172 variant is now dominant in the UK, and there have been fears that its sudden rise could derail Britain's exit from lockdown. Scientists – including me – have predicted previously that B16172 and other closely related variants could, because of the mutations they carry, be resistant to vaccines." The article includes social media sharing options (Email, Twitter, Facebook, LinkedIn, Print) and a disclosure statement.

Did you notice anything? The ‘Third Wave’ – there’s the number 3 again – will be caused by a “variant” which they have labelled **B16172**. All the indications are that this supposed variant, which they are calling the Delta Variant, will be cited as the leading cause of the coming wave of premature deaths in the UK and, presumably, in other parts of the world as well.

Ominous words

Note Professor Hunter’s ominous words. The viral mutations will be “resistant to vaccines”. Stated another way, a large proportion of the victims in the Third Wave will already have received two doses of the Covid vaccine, but will have no protection against the alleged ‘variant’. (We will return to this later.)

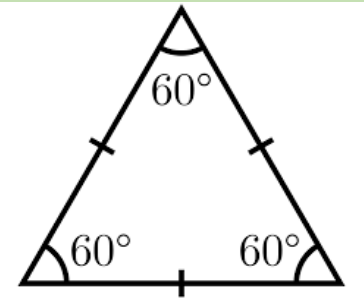

It's hard to believe that anyone can take these images seriously.

The media and the medical professionals are referring to this supposed mutation as the “Delta variant.” We are told it was called the “Indian variant” initially but that the Indian authorities objected, so it was renamed “Delta” instead.

Certain words and images, and not just numbers, have a deep symbolic significance for these people. So, of all the names that they could have associated with this magical number, why did they choose the word “Delta”?

The answer to this question may be found in Masonic literature. Delta is a word frequently employed by Freemasons to denote an ***equilateral triangle***. Some of the most authoritative writers in Freemasonry – including Albert Pike, Albert Mackey, and Manly P Hall – have described the equilateral triangle as a potent symbol designating, wherever it is used, the false god or ‘supreme deity’ of the Craft which they call the Great Architect of the Universe.

The one dollar bill displays the Eye of Providence or the All-seeing Eye of Freemasonry. The silver Masonic ring on the right bears the same symbol, an equilateral triangle or delta in which every angle equals 60 degrees. Since zero has no meaning in the magic of numerology, the Delta symbol is another way of expressing the Satanic number sequence, 666.

Here is what Mackey says in *The Encyclopedia of Freemasonry*:

“There is no symbol more important in its signification, more various in its application, or more generally diffused throughout the whole system of Freemasonry, than the triangle.”

“The equilateral triangle is to be found scattered throughout the Masonic system... It is in the ineffable degrees the sacred delta, everywhere presenting itself as the symbol of the Grand Architect of the Universe.”

“In Freemasonry, the equilateral triangle, called the delta, with or without a Yod in the center, the Yod alone, and the letter G, are recognized as symbols of the sacred and Ineffable name.”

COVID-19 vaccines 'almost certainly less effective' against B1.617.2 transmission: UK expert

A leading UK scientist who advises the country's vaccination programme said on Saturday that vaccines being administered to protect against COVID-19 are "almost certainly less effective" against preventing the transmission of the B1.617.2 variant first identified in India

In *The Symbolism of Freemasonry* he says:

“In the higher degrees of Masonry, the triangle is the most important of all symbols, and most generally assumes the name of the *Delta*...”

“The triangle, or delta, is the symbol of the Supreme Architect of the Universe – the Creator.”

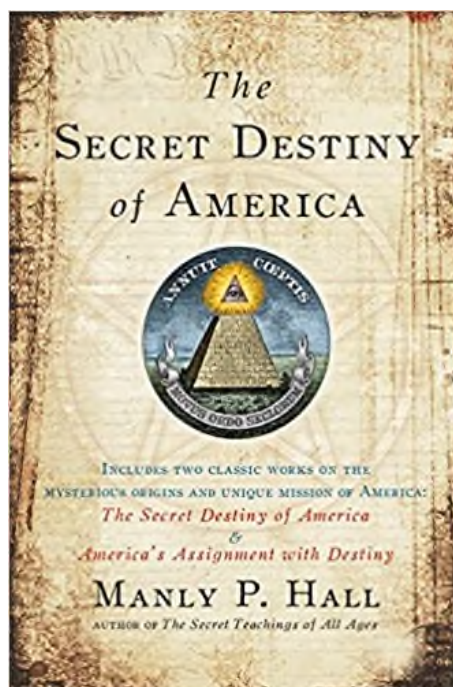

He also refers to it in the same book as “the sacred and symbolic delta”.

Albert Pike, who declared Lucifer to be the supreme supernatural being, expanded as follows on the cosmic significance of Delta and its symbolic association with the Ineffable Name and the Masonic Trinity:

“And so in our day every Masonic Lodge represents the Universe. Each extends, we are told, from the rising to the setting sun, from the South to the North, from the surface of the Earth to the Heavens, and from the same to the centre of the globe. In it are represented the sun, moon, and stars; three great torches in the East, West, and South, forming a triangle, give it light: and, like the Delta or Triangle suspended in the East, and inclosing the Ineffable Name, indicate, by the mathematical equality of the angles and sides, the beautiful and harmonious proportions which govern in the aggregate and details of the Universe; while those sides and angles represent, by their number, three, the Trinity of Power, Wisdom, and Harmony, which presided at the building of this marvellous work.” - **Albert Pike, *Morals & Dogma* (Chapter XIII)**

In *The Secret Destiny of America*, Manly Hall refers to the Delta as the divine part of nature completing the works of men:

“The triangle itself is in the shape of the Greek letter D, the Delta, the first letter of the name of God – the divine part of nature completing the works of men.”

The creation of a *New World Order*, with its capital and Temple in Jerusalem, is seen by the leaders of Freemasonry as the supreme accomplishment of man. Thus they are keen to expressly associate their sacred Delta with the method they are using to bring this about.

The secret destiny of America is nothing less than its own destruction and, from its ashes, the emergence like a phoenix of a New World Order.

That's the plan.

A plague of fear

The Covid hoax was designed to frighten the masses and convince them that, without a special vaccine, they would risk falling victim to a deadly new disease. The propaganda worked. Cowed and frightened by its relentless message of doom, more than half the population of most western countries appear to have received at least one dose of the bogus 'vaccine', a bizarre mixture of nanoparticles, magnetically receptive crystals, and biogenetic technology. Since we know from the book of Revelation that Satan intends to kill half of humanity, it is reasonable to assume that this worldwide vaccination program – which brims with destructive potential – has a role in this plan.

The Delta phase would appear to have been revealed in a British 'scientific' modelling document published by the UK Government dated 9 June and, in particular, an earlier one in the same series (Step 2, 31 March):

SPI-M-O: Summary of further modelling of easing restrictions – roadmap Step 4, 9 June 2021

Statement from the Scientific Pandemic Influenza Group on Modelling, Operational sub-group (SPI-M-O).

From: [Scientific Advisory Group for Emergencies](#)
Published 14 June 2021

Let's look first at the latest (9 June). It includes the following statements, the first of which comes from paragraph 8 of the report:

- c. The delta variant is highly transmissible. Whilst the precise herd immunity threshold cannot be calculated, an R_0 of 7 would require over 80% of all people (not just adults) to be immune for herd immunity to be reached and for the epidemic to begin to shrink without further measures. Younger adults play a disproportionately large role in transmission but have not yet been vaccinated.

19. Every commissioned scenario from the two groups shows another substantial wave of hospital admissions. These waves are larger than those seen in SPI-M-O's modelling at Step 3 of the Roadmap⁶ due to the recent emergence and now dominance of the delta variant, with its increased growth advantage and decreased vaccine effectiveness compared to the alpha variant.

27. The epidemic is at a particularly uncertain point in time and models have struggled to reconcile the rapid growth in delta cases with what appear to be currently flat hospitalisations. ~~This may be due to reasons outlined above in paragraph 8, however, this~~

The report is predicting a rapid growth in the number of Delta cases resulting in a “substantial wave of hospital admissions” (and deaths) and “decreased vaccine effectiveness” when addressing the Delta variant. In other words, they are predicting a large number of deaths in the second half of the year, even among people who have been fully vaccinated.

This makes no sense if, as they claim, total “vaccination” across the entire community would end the pandemic. So, on the one hand the public is being told that they ought to get vaccinated to protect themselves and their loved ones and, on the other hand, that the same vaccines are useless as a protection against so-called variants. In short, they are being conditioned to believe that the only solution is ongoing seasonal vaccination, where a new vaccine is developed to counter each new “variant” as it emerges.

This could prompt a large proportion of the community to dispense entirely with vaccination. The government must therefore come up with a way to coerce this non-compliant minority. We were given a vivid insight into how they intend to do this from several passages in their report of 31 March:

SPI-M-O: Summary of further modelling of easing restrictions – Roadmap Step 2

Date: 31st March 2021

31. As with previous SPI-M-O modelling of easing restrictions, **all scenarios from the three groups lead to a distinct third wave; there is significant uncertainty in both the timing and scale of its peak with results differing between the groups and across the sensitivity analyses.** For the central scenarios modelled (with significant transmission reduction after Step 4, very high uptake and no waning immunity or escape variant), the peaks are estimated to be lower than those seen in January 2021 and likely below those seen in Spring 2020 (Figure 4). The resurgence is a result of some people (mostly children) being ineligible for vaccination; others choosing not to receive the vaccine; and others being vaccinated but not perfectly protected (including those who have only received one

32. The resurgence in both hospitalisations and deaths is dominated by those that have received two doses of the vaccine, comprising around 60% and 70% of the wave respectively. This can be attributed to the high levels of uptake in the most at-risk age groups, such that immunisation failures account for more serious illness than unvaccinated individuals. This is discussed further in paragraphs 55 and 56.

In summary they are saying, without any reference to Delta, that “a distinct third wave” is coming and that it will hospitalize and kill large numbers of people. Most of these victims will already have received two doses of the vaccine. Then, chillingly, it lays the blame for this resurgence on the non-compliant minority who refused to take the vaccine! It also adds to this the category who are currently ineligible to receive the vaccine – who are mostly children.

Sham science and bogus modelling

This is unbelievable. We are witnessing the use of sham science and bogus modelling to compel the entire population to receive a vaccine which, very obviously, is going to harm many of them and kill millions of innocent people.

We could say a great deal more about this wicked genocidal scheme, but it should hardly be necessary. The vaccine itself will cause the Delta deaths and the unvaccinated will be blamed. The evidence is staring us in the face.

Even worse, they are going after our children. We warned of this in several of our papers over the past 15 months. To any normal person this kind of evil is inconceivable. It never occurs to them that the same Triangle Gang which murdered 200 million of their own citizens in the 20th century are now turning their attention to the only parts of the world that are not yet under their absolute control, namely western Europe, N America, and Australia/New Zealand.

CONCLUSION

Even if a person does not subscribe to the idea that world Communism is behind all of this and that a genocidal plan is being rolled out, one is still left with the overwhelming evidence that the vaccines are causing substantial harm and that our governments have consistently censored all attempts to debate the rationality behind what they are doing. One is obliged also to explain why any government can make vaccines mandatory or why, in a democracy, they are determined to violate the bodily integrity of their own citizens.

For those who still “trust” their government or believe what they are told by the mainstream media, there is little hope. Christians who study God’s Word will abide under the shadow of the Almighty, but only if they trust and believe what He says. While they continue to take direction in these matters from their unbelieving leaders and ignore what the Holy Spirit is telling them, then they are in serious trouble. On the other hand, those who worship the false god whose symbol is Delta, who continue to imagine in their hearts that they will “build back better,” are in outright rebellion. They have crossed the border of wickedness.

When he returns Christ Our Lord, the Lion of Judah, will destroy each and every one of them:

**“For by fire and by his sword will the LORD plead with all flesh:
and the slain of the LORD shall be many.”**

- Isaiah 66:16

**“As therefore the tares are gathered and burned in the fire; so
shall it be in the end of this world. The Son of man shall send
forth his angels, and they shall gather out of his kingdom all
things that offend, and them which do iniquity; And shall cast
them into a furnace of fire: there shall be wailing and gnashing
of teeth. Then shall the righteous shine forth as the sun in the
kingdom of their Father. Who hath ears to hear, let him hear.”**

- Matthew 13:40-43
